-  AUTOMOTIVE & TRANSPORTATION
-  BIOFUEL & AGRICULTURE
-  CLEAN ENERGY
-  ENERGY MGT + EFFICIENCY
-  ENERGY STORAGE
-  SOLAR

Germany

CLEAN TECH

Provider of fuel cell technologies for pollution free electrical drives. The company designs and builds fuel cell powered drives for small vehicles like city scooters, wheel chairs, and small delivery vehicles.

 AUTOMOTIVE & TRANSPORTATION

Netherlands

CLEAN TECH

Provider of products and processes in the area of biofuels, bio-based chemicals, and novel crystal forms of existing drugs by applying its proprietary, high-throughput research and development (R&D) technology.

 BIOFUEL & AGRICULTURE

USA

CLEAN TECH

Provider of bioenergy solutions. The company provides renewables and power plants designed to enable the conversion of biogas from landfill sites into electricity.

 BIOFUEL & AGRICULTURE

USA

CLEAN TECH

Developer of distributed conversion power systems. The company's renewable power systems are applicable in solar power, waste heat recovery, and biomass combustion.

 CLEAN ENERGY

USA

CLEAN TECH

Developer of open ocean aquaculture technology. The company is developing a hybrid ocean conversion power plant.

 CLEAN ENERGY

USA

CLEAN TECH

Provider of renewable wind energy appliances to the residential, business, and government customers.

 CLEAN ENERGY

USA

CLEAN TECH

Developer of an energy consumption technology platform. The company's platform aims to help users manage their energy consumption. The company provides home energy reports that allow customers to learn about and minimize their energy consumption.

 CLEAN ENERGY

Canada

CLEAN TECH

Provider of enterprise software which helps companies create greenhouse gas emissions strategies. The company offers a series of software services to monitor and manage greenhouse gas emissions.

 ENERGY MGT + EFFICIENCY

USA

CLEAN TECH

Developer of a wireless electricity system that uses laser diodes and photovoltaics to deliver power rather than wires. The company's technology aims to turn electricity into optical power, which is beamed across open space into a receiver.

 ENERGY MGT + EFFICIENCY

Ukraine

CLEAN TECH

Provider of ultracapacitor technology. Its carbon-based electrochemical double layer capacitor (EDLC) technology improves efficiency in applications including transportation, consumer electronics, energy generation, and power supply.

 ENERGY STORAGE

Germany

CLEAN TECH

Developer of copper-indium-gallium-diselenide (CIGS) thin-film solar cells on flexible substrate materials.

 SOLAR

USA

CLEAN TECH

Developer of third generation thin film PV technologies which dramatically increase solar cell efficiency and reduce manufacturing costs.

 SOLAR
